H AVE now in store and for sale at very reduced prices THE GREAT COUGH REMEDY!

THE GERAT COUGH REMEDY!

READER! have you a Cough, which you are neglecting, under the idea that it is only a common cold, that it will soon "wear itself out? Let a friend tell you, in all kinds ness, what will soon be the probable result.

In a short time, if you continue to neglect yourself, you will begin to feel a sense of lightness and oppression across the chest, accompanied with frequent sharp darting pains. Then a dry, hacking Cough will set in, and when you raise anything it will be a thick and vellowish, or white fredly matter, streaked, perhaps, with blood. If you will take no medicine, these unpleasant symptoms will increase, and you will soon have Heetic Fever, Cold Chills, Night Swents, Copious Expectoration, and then Great Prostration. If you still neglect youself, a few weeks of months will see you cousign ed to the grave, leaving your friends to mourn how rapidly CONSUMPTION did its work, and hurried you may.—Friend! have you no cause to be alarmed? In the above sketch you may see as in a glass, how every case of Consumption progresses, with more or less rapidity, to a fatal termination. Of all the Thousands and Milliems whem this great Destroyer has gathered to the tomb, every single case began with a Cold! If this had been attended to, all might have been well but, being neglected, under the fatal deduction that it would "went itself," it transferred its deadly action to the substance of the Langs, exciting there the formation of tubercles. Another, and another cold added fuel to the flame, until these tubercless began to soften and suppurate eaving, by their ulceration, great cavities in the Langs. At his crasis, the disease is very difficult of care, and oftentimes arrest the disease, or check its progress, and will always make the patient more comfortable, and prolong his life, and is therefore worthy of a trial;—but in its incipient or forming periods, Consumption is as curable as any other disease, and "Dr. Rogers' Syrup of Liverworth, Tar, and Canchalagua," if taken at this time, will c AVE now in store and for sale at very reduced prices

MOTHERS!

Have you delicate, weakly children, who are always taking cold, and subject to Croup? Remember! There never was case of Croup, which did not originate in a Cold! And when your child goes to bed wheezing and coughing, you know not that, before morning, Croup may not set in, and ere you can get a Physician, your dear child may be beyond the reach of help. We beseech you therefore, as you value the lives of your children, keep this medicine by you in the house, and when your little ones take cold and commence coughing, give it to them at once, and rest not until the cargh is entirely subdued. We conscientiously aver, after the most extended experience, that if this advice were followed no child need ever no child need ever

for the cold would be cured, before it could arrive at this aggravated and fatal stage. Let every Mother, especially, head well these remarks, that she may not bereafter, when mourning over the early blight of some cherished blossom, have occasion bitterly to reproach hetself for her criminal neglect. It is an old adage, that "to be forwarned, is to be forearmed."

Parents! so let it be in your case.

THIS well known Hotel situated within a few steps of the passenger car landing of the Western and Atlantic railroad is now open under the supervision of Thomas Crutchfield, assisted by Mr. J. W. F. Bryzon and Lady. This House while under the control of Colonel J. J. Griffin acquired a very high reputation as a first class hotel. The present proprietor having secured the services of Col. Griffin's barkeeper, and having furnished the house entirely anew, hopes to retain its high reputation and merit public patronage. Passengers can be accommodated with an omnibus to and from the boats.

worthy of the fullest consideration. They do the work of the Laundry in Cold Warra, either SOFT, HARD or SALT dispensing entirely with boiling, pounding, rubbing, &c. &c., consequently a large amount of fuel, and wear and tear of clothing is saved, and not one-fourth the amount of labor is required to do the washing of a family.

The tendency of these Soaps is to soften the Cloths and remove the dirt; and in their use, the hands are made soft, the complexion clear and white. Washing is done by simply mixing the Soan on the ranks of Clothes more solids. rubbing the Scap on the parts of Clothes most soiled, and placing them in water sufficient to cover them: there let them remain a few hours—then with a slight hand rubbing 50 do Brown's D D do;

The cost of these Scaps is no more than those ordinarily used; and besides this, the great wear and tear of Clothing consequent upon the old method of hard rubbing upon a Board, Machine, Pounding, Barrel, &c. &c., is wholly avoided, and fuel being entirely dispensed with, an immense saving is thus made.
